Atlin Road

Atlin Road

A source of the Yukon River, Atlin Lake occupies about 775 square kilometres (305 square miles) of wilderness in northern British Columbia, Canada, making it the province's largest body of water. The name "Atlin" derives from a word that means "big lake" in the language of the indigenous Tlingit people, some of the original human inhabitants of northwestern North America.

Atlin Road

Der Atlin See, eine Quelle des Yukon Rivers, umfasst ein Gebiet von rund 775 Quadratkilometern Wildnis im nördlichen British Columbia in Kanada und ist damit das größte Gewässer dieser Provinz. Der Name „Atlin“ stammt aus der Sprache der Tlingit-Indianer, eines der ältesten einheimischen Völker im Nordwesten Nordamerikas und bedeutet „großer See“.

Whytecliff

Whytecliff

Beautiful during the day, Whytecliff Park in West Vancouver, Canada becomes spectacular at sunset. The mirror-like surface of the Salish Sea reflects the visual drama of pink and purple clouds drifting through the sky above it. A large number of marine animal species live beneath the surface of the ocean bordering Whytecliff Park, which was designated one of Canada's first Marine Protected Areas in 1993.

Whytecliff

Der tagsüber wunderschöne Whytecliff Park im Westen Vancouvers in Kanada wird bei Sonnenuntergang spektakulär. Die spiegelglatte Oberfläche des Salischen Meeres reflektiert das Schauspiel der pink und violett gefärbten Wolken, die über den Himmel dahinziehen. Eine Vielzahl von Meerestieren lebt unter der Oberfläche des an den Whytecliff Park grenzenden Ozeans, der 1993 zu einem der ersten Meeresschutzgebiete Kanadas ernannt wurde.

San Francisco Morning

San Francisco Morning

With a height of about 260 metres (853 feet), the Transamerica Pyramid scrapes the sky as the second-tallest building in San Francisco and dominates the city's downtown skyline. Upon its completion in 1972, it was the 8th tallest building in the world.

San Francisco Morning

Mit einer Höhe von 260 Metern (853 Fuß) ist die Transamerica Pyramid das zweithöchste Gebäude in San Francisco und dominiert die Skyline der Stadt. Bei ihrer Fertigstellung 1972 war sie das achtgrößte Gebäude der Welt.

Green Lake

Green Lake

Mountains, meadows, and forests skirt the shoreline of bluish-green Lake Planšar, a heart-shaped, artificial body of water constructed in Slovenia's Jereško Valley in 1970. A much larger glacial lake from the last ice age once filled much of this valley. The lake began to drain dry in the 13th century when a severe earthquake destroyed the rock barrier that hemmed it in. It was gone by the 19th century. The residents of Jereško valley who created Lake Planšar did so in memory of this lost lake.

Green Lake

Berge, Felder und Wälder umranden den grün-bläulich schimmernden Planšarsko Jezero See, ein herzförmiges Gewässer, das 1970 im Jereško Tal in Slowenien angelegt wurde. Ein weitaus größerer Gletschersee aus der letzten Eiszeit füllte einst das Tal nahezu aus. Im 13. Jahrhundert begann der See auszutrocknen, als zahlreiche Erdbeben die Felsbarrieren zerstörten, die den See säumten. Der See war im 19. Jahrhundert dann vollständig verschwunden. Die Einwohner des Jereško Tals gestalteten den Planšarsko Jezero See als Andenken an den vertrockneten Gletschersee.

Eden Falls

Eden Falls

In Croatia's Plitvice Lakes National Park, translucent waters of 16 terraced lakes, formed by natural travertine dams, cascade into and out of each other in a mesmerizing fashion. These lakes' crystalline waters change colors throughout the day, from bright turquoise to grey, depending on the angle of the sun's rays and the mineral makeup of the lake water. Large populations of bears, wolves, and many rare bird species live in the dense forests surrounding the lakes.

Eden Falls

In Kroatiens Nationalpark Plitvicer Seen fließt klares Wasser auf faszinierende Weise von einer Stufe zur nächsten der 16 terrassenförmig angelegten Seen. Die Kaskaden entstanden durch natürliche Kalksteinablagerungen. Im Laufe des Tages verändern sich die Farben des kristallklaren Wassers von einem strahlenden Türkis zu dezentem Grau, je nachdem in welchem Winkel die Sonnenstrahlen auf die Oberfläche der mineralhaltigen Gewässer auftreffen. Ein großer Bestand an Bären, Wölfen und seltenen Vogelarten besiedeln die dichten Wälder rund um die Seen.

Mirror Lake

Mirror Lake

The peak of Zugspitze Mountain, which is Germany's highest point, soars nearly 3,000 metres (9,800 feet) above sea level in southern Bavaria. Just north of the mountain lies the glacial lake Eibsee, on whose calm, glassy surface a reflection of the rocky sides of Zugspitze are often visible.

Mirror Lake

Der Gipfel der Zugspitze erhebt sich im Süden Bayerns und ist mit fast 3000 m über Meereshöhe der höchste Punkt Deutschlands. Nördlich des Berges liegt der Gletschersee Eibsee, in dessen ruhiger Oberfläche sich die schroffen Felsen der Zugspitze widerspiegeln.

Sunday

Sunday

The birch tree is found throughout the world and is used for ornamental purposes in some cultures. Many cultures celebrate the coming of spring by taking a tree trunk from the forest and erecting it in the town center as a maypole. This ancient practice is still alive in many countries of the world.

Sunday

Im germanischen und im slawischen Volksglauben spielte die Birke eine große Rolle. Aus alter Zeit stammt auch der Brauch, einen Stamm aus dem Wald zu holen, um ihn auf dem Dorfplatz aufzustellen. Es wurde damit der erwachende Frühling in das Dorf geholt. Noch heute lebt der gleiche Brauch in Gestalt des Maibaumes fort.

Ocean Breeze

NATIONAL
GEOGRAPHIC™

Ocean Breeze

Many types of dunes exist in the world, all formed under the influence of gravity. Wind then shapes these structures gradually over time. True dunes must be separated from the dunes that form on semi-humid beaches under the presence of vegetation, which helps to trap the sand. On beaches, dunes could be considered „alive“ as they continually change shape as wind and tides affect their construction.

Ocean Breeze

Eine Düne beginnt mit einer Brise am Strand und ein paar Sandkörnchen. Der Wind, der über den Strand fegt, nimmt die einzelnen Sandkörnchen auf, sie werden auf der Brise weitergetragen bis sie auf dem Strand auftreffen und somit gleichzeitig weitere Körner in den Luftzug wirbeln – ein sich ständig wiederholender Vorgang, unzählig, millionenfach. Dünen sind immer in Bewegung, sie wandern, verändern sich und wachsen mit dem Wind.

Merian

Merian

Maria Sibylla Merian (1647-1717) investigated the plant and insect world of Surinam. Her unique watercolour paintings and copperplate etchings detailed exquisite beauty, splendid colouring and precision. For the connoisseurs of art and for the lovers of plants and insects, she created a true joy. („Metamorphosis insectorum Surinamensium“, preface)

Merian

Maria Sibylla Merian (1647-1717) erforschte die Pflanzen- und Insektenwelt Surinams. Ihre Aquarelle und Kupferstiche sind einzigartige Zeugnisse ihres künstlerischen Schaffens; gefertigt, „um sowohl den Kennern der Kunst als auch den Liebhabern der Pflanzen und Insekten Freude zu bereiten“ („Metamorphosis insectorum Surinamensium“, Vorwort).

NYC Lights

NYC Lights

Home to around 8 million people, New York City is the largest city in the United States. Long known as a cultural melting pot, over a hundred languages are spoken within its borders. Throughout its colourful history, New York has earned many nicknames, including "The Big Apple" and "Gotham." In addition, thanks to a bustling nightlife, New York is also called the "City that never sleeps".

NYC Lights

New York City beherbergt rund 8 Millionen Menschen und ist die größte Metropole in den Vereinigten Staaten. Ein riesiger Schmelztiegel, in dem über 100 verschiedene Sprachen gesprochen werden. Über die Jahre hinweg hat New York einige Spitznamen wie „The Big Apple“ oder „Gotham City“ bekommen. Und New York ist auch „die Stadt, die niemals schläft“.

Torres del Paine

Torres del Paine

The last rays of the setting sun cast a warm glow over the tips of the Cordillera del Paine, a group of mountains in Torres del Paine National Park. Declared a biosphere reserve in the Chilean part of Patagonia, the park enchants nature lovers and mountaineers from all over the world. Alongside 3000-metre high mountains and glaciers, the area boasts rich vegetation and wildlife and is surrounded by fjords and lakes.

Torres del Paine

Die untergehende Sonne wirft letzte, wärmende Strahlen auf die Spitzen der Cordillera del Paine, einer Berggruppe im Nationalpark Torres del Paine. Der zum Biosphärenreservat erklärte Park im chilenischen Teil Patagoniens verzaubert Naturliebhaber und Bergsteiger aus aller Welt. Er bietet seinen Besuchern neben 3000 Meter hohen Bergen und Gletschern eine vielfältige Pflanzen- und Tierwelt, umgeben von Fjorden und Seen.

Olive Tree

Olive Tree

Silvery grey-green leaves and a gnarled, twisted trunk are the characteristic features of the olive tree. Belonging to the Oleaceae family, the ever-green tree grows very slowly and can live for several hundred years, in some cases for over 1000 years. The olive tree usually grows in the Mediterranean, the Middle East and South Africa, where it receives sufficient sun. It has always been considered a symbol of peace.

Olive Tree

Graugrün-silbrig schimmernde Blätter und ein knorri-ger Stamm sind die charakteristischen Merkmale des Olivenbaums. Die zur Familie der Ölbaumgewächse gehörende immergrüne Pflanze wächst sehr lang-sam und kann mehrere Hundert, in Einzelfällen bis zu über 1000 Jahre alt werden. Der Olivenbaum wird hauptsächlich im Mittelmeerraum, dem Nahen Osten und Südafrika angebaut, wo er genügend Sonne er-hält. Seit jeher gilt er als Symbol für den Frieden.
